### Providing Hope and Help Every Step of the Way

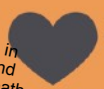

#### Prevention

Promoting sexual integrity among the youth in the community encourages youth to prevent unwanted pregnancies and promote overall sexual and emotional health. Contact us about having the sexual integrity speaking team present to your group.

#### Intervention

Our trained nurses provide free and confidential pregnancy tests, ultrasounds, and counseling to anyone finding themselves in a crisis pregnancy situation. Often this care and support is the difference between a life and death decision.

#### Education

Through our AIM and ASPIRE programs, men and women receive mentoring, education (through our 40+ classes), and earned material resources. These programs empower and equip families to break cycles of brokenness, allow them to provide for their families, and provide an opportunity to encounter Christ.

#### Recovery

The physical and emotional after-effects of abortion can put men and women into bondage for decades. Through our abortion healing Bible study, The Healing Journey, participants are given the help and courage to break free and use their past hurts for good.
